

How to use Zapier and Eventbrite to charge for Webinars.

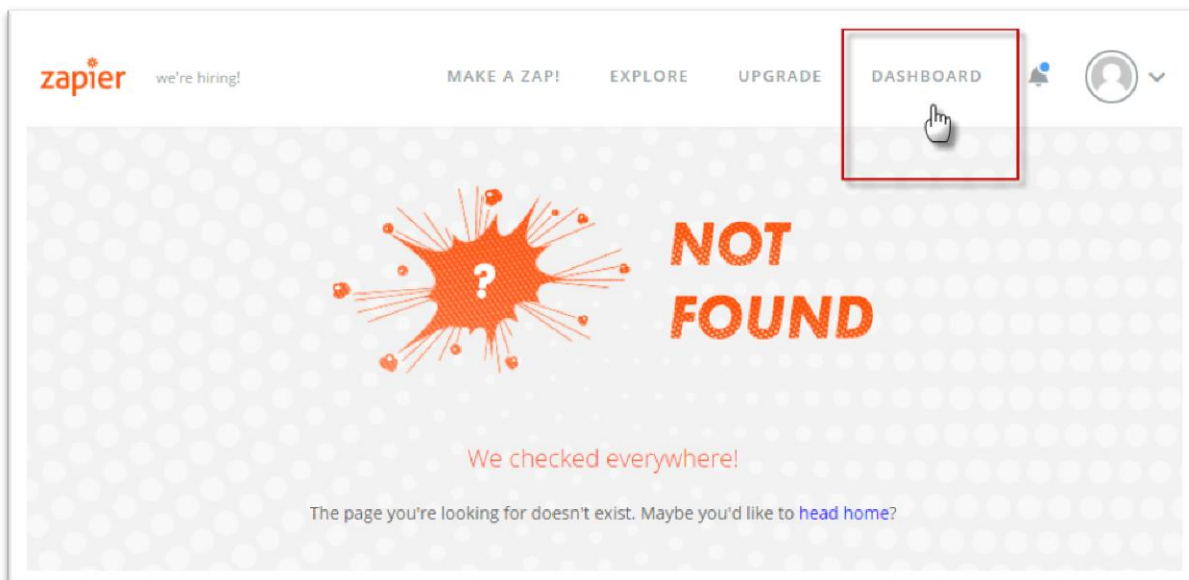

Please note that this guide is offered as a courtesy and AnyMeeting Support is unable to advise in the use of Eventbrite or Zapier sites. If you need help with Eventbrite or Zapier, please contact their respective sites for help.

1. Create a free Zapier account on <https://zapier.com/>
2. Create a free Eventbrite account on <https://www.eventbrite.com/>
3. Schedule a webinar on your AnyMeeting account. (You only need to schedule it, skip the invitations and registrations page. Create a Survey if you wish.)
4. Go to your Webinar details page and select Enable Registration Form.

5. Create an event on Eventbrite for this webinar and configure the payments as noted on their easy to use set up.
6. Now click the link to our [pre-formed Zap on this page](#) for the Eventbrite Zap.

**If during this process of connecting Eventbrite and Zapier you see the below screen, click on Dashboard to continue:

- On your Zap, you will choose fields as noted (pretty straight forward) and use the meeting code from your scheduled webinar where prompted.

The screenshot shows the AnyMeeting dashboard. At the top left is the AnyMeeting logo. To the right are navigation links: "My Meetings", "Account", "Support", and "Log out". Below the logo is the "AnyMeeting Support" section with a "Live Support ONLINE" button. The main dashboard features two large buttons: "Start Now" (green) and "Schedule" (blue). Below these are tabs for "My Meetings", "Recordings", "Polls", "Content Library", and "Downloads". The "My Meetings" tab is active, showing a card for a webinar titled "My Zapier Webinar". The card includes the date and time: "Friday 18 December 2:30 PM". There are two buttons: "Start this Webinar" (green) and "Practice" (grey). The meeting details show "anymeeting.com/465-376-545" with the code "465-376-545" highlighted in a red box and a red arrow pointing to it. To the right of the code, it says "0 Attendees Invited" with a checkmark icon. A globe icon is visible in the background of the card.

5 Match up  Eventbrite Attendee to  AnyMeeting Registration

First Name *(required)*

fields"/>

Last Name *(required)*

fields"/>

E-mail *(required)*

fields"/>

Webinar Code *(required)*

The meeting code, like 123-123-123

fields"/>

8. Test your Zap and if all is well, turn it on.
9. Now post your Eventbrite page online, send invitations, however you would like to offer your registration to others.
