Customized training options:

Our team of expert Boardmaker Education Specialists will work with you to develop a customized training plan to help your staff acquire the skills needed to effectively create and implement adaptable print and on-screen activities to support the individuals they serve.

In-Person, On-Site Training*

- Phone consultation with a Boardmaker Education Specialist to discuss training needs, goals and expectations (30 min.)
- Phone/web assistance with computer lab set-up (60 min.)
- Facilitator preparation training (30 min.)
- Customized on-site training with hands-on learning opportunities (6 hrs.)
- Downloadable handouts and resources
- Certificates of Completion

* Recommended 25 people maximum for training.
Special arrangements can be made for larger groups.

In-Person Training (F9MJT203): \$3,750/day

In-Person Training Example

Mr. Walker is planning a series of professional development days for his staff. One of his training goals is to educate the staff on their most recent Boardmaker investment as soon as possible. He decides to purchase one in-person training day at the beginning of the school year and 2 hours of live web training for follow-up support.

Live Web Trainings

- Phone consultation with a Boardmaker Education Specialist to discuss training needs, goals and expectations (30 min.)
- Phone/web assistance for computer lab set-up (30 min.)
- Facilitator preparation training for hands-on training (30 min.)
- Customized web-based training (Hands-on or demonstration)
- Downloadable handouts and resources
- Certificates of Completion

1-3 hours Live Web-based Training (F9MJT201): \$150/hour

4-6 hours Live Web-based Training (F9MJT202): \$125/hour

Live Web Trainings Example

Ms. Garcia needs to train her staff, but she is limited to specific professional development days or after school hours. With the help of a Boardmaker Education Specialist, she decides to build knowledge and skills for her staff in stages, with live, 2-hour web trainings four times during the school year. She will work with a Boardmaker Education Specialist to get the computer lab ready so that her staff will be able to participate in a hands-on learning experience with the software.

Train the Trainer

- Phone consultation with a Boardmaker Education Specialist to discuss training needs, goals, and expectations (30 min.)
- Training plan development for trainers and staff (1 hr.)
- Phone/web assistance with account set-up (30 min.)
- On-site hands-on training covering technical and implementation techniques (6 hrs.)
- Follow up consultation with trainers via phone/web for additional topics including implementation, troubleshooting, general questions, or post-training development (6 hrs.)
- Downloadable handouts and resources
- Certificates of Completion
- Trainers' Tip of the month (3 months)

Train the Trainer (F9MJT203): \$4,500

Train the Trainer Example

Mrs. Davis is one member of a small team of educators and therapists who are responsible for providing assistive technology training and support district-wide. She decides that the Train the Trainer services will provide her team with the knowledge and skills they need to provide Boardmaker troubleshooting and implementation support for the entire district.

For price quotes and more information about the trainings, please call 1(800) 588.4548, or email info@boardmakeronline.com
