

## How to Connect to Alliant's Wireless Network from an Android Device

- Step 1** To begin, go to your Applications or Programs list and Choose "**Settings**":
- Step 2** In Settings, click on **Wireless controls**
- Step 3** From Wireless controls, click on **Wi-Fi Settings**
- Step 4** In the list of Available Wi-Fi Networks, choose "**Alliant**"

- Step 5** When prompted "Enter your **Username and Password**" " (same as your Alliant login credentials).
- Step 6** The Network status will show **Obtaining address...** then **Connected**. You are on the Alliant network.
