

Winter '18- Patch 3 Release Notes

Below is a list of the issues that have been fixed in the Winter '18 patch:-

- Carousel content items disappearing
- All Sites showing as private in latest & popular tile
- Vitalware - "Add to Calendar App" download a file with no file extension
- When adding an event using the "Custom Content" tile, the event date becomes the date you add the content instead of the event date
- "Favorites People" order not correct
- Analytics>Performance>Content> incorrect count in - Favorites, Post, Shares, Useful
- Carousel- Page title Image not rendered and a blank space displayed in carousel
- Getting error in global search
- Exception occurred while searching google drive file
