

# Spring '18 - Patch 8 Release Notes

Below is a list of the improvements and issues that have been fixed in this Spring '18 patch:-

---

## Bug Fixes

- Fixed 'Email Notification Settings' link on email notifications
- Fixed issue with Newsletter images over 570px pushing out layouts in Outlook 2016
- Clicking on Instagram videos in the carousel now opens the video in a new tab rather than a lightbox
- Fixed issue with not being able to clear 'Actionable' items from Must Reads
- Fixed issue with some images not showing in custom tiles
- Fixed an 'unexpected token' error when someone with an apostrophe in their name is added to a site
- Improved error text for users who are trying to post to a 'Broadcast Only' site
- Fixed issue with logo in email newsletter shrinking
