

Summer 18 – Patch 4 Release Notes

Version: v1.251.8

Installation URL:

<https://login.salesforce.com/packaging/installPackage.apexp?p0=04t01000000f6tj>

Below is a list of the issues that have been fixed in this Summer '18 patch:-

Bug Fixes

- Salesforce User Data relating to user's managers not syncing with Simplr
- "From email address" change confirmation email being sent to App Manager when Simplr emails have been disabled
- Employee's Job Title appearing in the Site About section when it has been hidden in Manage App > People > Profile Fields
