Below is a list of the issues that have been fixed in this Summer '18 patch:-

Bug Fixes

- Error shown when hire date is 29th February and it is a non-leap year. Work anniversary will now be displayed in Celebrations Tile as 1st March. Birthdays on 29th February are also shown on 1st March on non-leap years.
- Link to Site in Newsletter redirecting to 404 page when the Site has no Dashboard.
- Issue with Hire Date in the last week of the year leading to the wrong year being displayed on profile.
