

# VistaCam PT

## Quick Start Guide

Setup is quick and easy. Just follow these few simple steps and you'll be up and running in no time.

### Step 1

Carefully remove your VistaCam PT and included accessories from their packaging.

### Step 2

Connect the power adapter for your VistaCam PT to the power receptacle on the side of the camera, and then into an AC electrical outlet.

### Step 3

Connect the included Ethernet cable to the back of the camera's LAN port.

Plug the other end of the cable into an available port on your router.

### Step 4

You'll see the yellow and green LED lights on the back of your camera light up.

Your camera is now ready to be "paired" to your Vera Smart Home Controller.

### Step 5

Type [www.micasaverde.com/vistacampt](http://www.micasaverde.com/vistacampt) in your browser.

Follow the on-screen instructions to complete the initial pairing process and complete the setup of your VistaCam PT, including wireless operation.

 WI-FI  
VistaCam requires Wi-Fi for wireless operation.
